

Complete Business Visibility to Drive Revenue

The GoTab and Ohanafy integration allows your brewery to analyze both sides of your business in a single platform. Any data gathered by GoTab is automatically synced with Ohanafy's inventory analytics, providing you with up-to-the-minute information for reports and journal entries.

THE GOTAB ADVANTAGE

It's more important than ever to leverage software to help drive better business decisions. The power of GoTab and Ohanafy will give you a consolidated view of your data and enriched analytics, saving you time, increasing productivity and driving revenue.

WITH GOTAB AND OHANAFY, BREWERIES BENEFIT FROM:

- 360° sales visibility across your entire operation.
- Seamless and real-time syncing of front-of-house transactions to help guide purchasing and inventory decisions.
- Data and visibility that you need to make quick and reliable decisions.
- A single view of retail and wholesale revenue with a streamlined reporting process.
- Automatic sync with Ohanafy's enhanced inventory analytics, providing up-to-the-minute information for reports and journal entries.
- Pain-free Tax Reporting and TTB Reporting/Excise Tax Submission.
