

Sell More Activities, Events & Experiences—Drive More Revenue

GoTab's Restaurant Commerce Platform (RCP) now integrates with REX, the trusted booking solution for activities, games, and events. Operators benefit from a custom branded booking page with flexible rules and dynamic pricing to sell more fun experiences without overbooking. REX connects to your GoTab menu to increase efficiency, consolidate reporting, and drive more revenue.

THE GOTAB + REX ADVANTAGE

GoTab operators and their guests will benefit from a seamless experience. Guests can book and pay for reservations online and when they check in on the day of their reservation, a tab will automatically be created for them with their purchase and payment info stored. The frictionless experience will allow guests to check in faster, start ordering, and have fun right away.

WITH GOTAB & REX, BUSINESSES BENEFIT FROM:

- Faster check-in. Automatically create tabs when guests check-in
- Higher check sizes. Drive more revenue with experiences and add-ons.
- Improved cash flow. Collect payments upfront for reservations
- Single source of truth. Advanced reports and payments in one place
