

Automate & Simplify Complex Tip Pools and Calculations

GoTab's Restaurant Commerce Platform (RCP) now integrates with TipHaus, the industry leading solution for automated tip calculations and payment of daily tip earnings. TipHaus lets you ditch the spreadsheets and late office hours by automating your entire tip process. By integrating directly with GoTab, TipHaus automatically calculates and distributes tips according to each restaurant's specific needs, saving operators time, and money.

THE GOTAB ADVANTAGE

TipHaus and GoTab simplify your restaurant's financial operations, ensuring your tip calculations and payments are accurate, real-time, and fully transparent.

- Achieve significant savings of both time and money, reducing monthly expenses by more than 20 hours and \$1000 (data from an average TipHaus customer.)
- Trim down manager/employee financial disputes by an impressive 95%.
- Efficiently eliminate errors, fraud, and legal complications associated with tip-related matters.
- Boost employee retention and engagement by offering free, daily tip earnings disbursements.

Similarly, GoTab excels in simplifying complex service experiences, transforming the entire journey into a dependable and user-friendly experience for all parties involved: guests, staff, and operators.

WITH GOTAB AND TIPHAUS, RESTAURANTS WILL BENEFIT FROM:

Efficient time management and error reduction:

Complex calculations and workflows are simplified, freeing up valuable time for other crucial tasks.

Minimized Overhead Costs: Reduce expenses linked to manual tip handling processes.

Simplified tip operations: A unified business operation characterized by simplicity, convenience, and accuracy.
