

As an event planner, your goal is to create a flawless and unforgettable experience for every guest. From selecting the perfect menu and coordinating exquisite decorations to ensuring a warm and welcoming atmosphere upon arrival, the attention to detail is paramount. With GoTab, the possibilities are endless as you can now curate a personalized experience tailored to each event and every individual attendee. Let GoTab help you elevate your events to new heights and leave a lasting impression.

Customize Event Cards

Craft a personalized selection of privileges tailored to every event and attendee. Use event cards to set specific usage times and participating vendors within a multi-tenant venue.

Party Tax-Exempt?

Ensure that taxes and gratuities are covered in advance, so guests can utilize their full spend on prepaid event cards.

Ditch the Drink Tickets

With GoTab's event cards, effortlessly distribute prepaid cards at the beginning of your event. No more hassles with redeeming and reconciling physical drink tickets.

Make Your Next Event Shine

Every event is one-of-a-kind. GoTab eliminates the hassle by letting you manage deposits, handle ordering and payment, access private menus, and so much more. This ensures your guests enjoy the customized food and beverage experience you've envisioned without concerns about applying deposits, exceeding limits or accessing the right menu.

Issue Customized Event Cards with Age Restrictions for Minors

In venues serving alcohol, you can issue age-specific cards for minors, ensuring a smooth and compliant experience for all attendees.

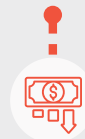

Use Discoverable Tabs with Spend Limits

Allow event guests to seamlessly join a host's tab by simply scanning a custom QR. When the party is approaching its limit, GoTab will text the host.

Run Food Hall and Entertainment Venue Events Like a Champ!

Uniquely, GoTab supports large parties at food halls and entertainment venues with ease. Our event cards allow usage time restrictions with participating vendors within a multi-tenant venue. In addition, tip percentage is distributed to vendors proportionally, based on the guest's spend.
