# The GoTab & PourMyBeer Advantage

GoTab's integration with PourMyBeer streamlines the self-pour experience by consolidating the pour card and POS functionality. Guests can activate a pour card to open a tab, pour their own beverages, and pay by the ounce, while operators benefit from automated tab management, including credit card collection and RFID disconnection. This integration simplifies operations, offering a faster and more efficient system for both guests and operators.

BENEFITS FOR OPERATORS

- Auto-Close Out Tabs at the End of the Night
- RFID Across Different Zones/Vendors/ Etc. Creating a Seamless Guest-Ordering Experience
- RFID Capabilities at Kiosk
- Multiple Passes Supported on a Single Tab
- Check-In and Check-Out at One Terminal
- PourMyBeer's Biggest Clients Use Us
- Real-Time Tab Updates
- Auto Product Sync

THE GOTAB & POURMYBEER ADVANTAGE

GoTab's advanced POS solutions, designed to minimize wait times, boost profits, and reduce labor costs, seamlessly integrate with PourMyBeer's innovative self-pour technology. The addition of a new QR feature, alongside RFID functionality, simplifies the self-pour process for both operators and guests, offering enhanced security through continuous authorization of checks. This integration ensures a more efficient and secure self-pour experience.
