

# Enhance Security & Drive ROI

Solink is a powerful cloud-based video security and loss prevention platform that integrates seamlessly with GoTab to provide complete visibility into your business. Combining video with data analytics, Solink enhances your security and operational efficiency, protecting your people, patrons, and profits.

## THE GOTAB & SOLINK ADVANTAGE

With GoTab & Solink, gain enhanced data insights and maximize ROI through a connected, validated system that simplifies security and operational management.

## KEY BENEFITS FOR OPERATORS

### Enhanced Data Accuracy

Pair video with integrated data, eliminating errors and discrepancies to ensure your business decisions are data-driven and precise.

### Streamlined Loss Prevention

Identify and address discrepancies in real-time by viewing transactions alongside video footage, helping to prevent loss and protect profits.

### Optimized Operations

Empower operators with insights to drive efficiencies, maintain high security standards, and improve overall performance across venues.

### Comprehensive Visibility

Gain a holistic view of your business, from security to daily operations, with integrated reporting and analytics that inform decisions at every level.
