**GoTab** ✕ **HOP ROBOTICS**
Dispensing Automation

Automation on Tap

This integration presents a revolutionary solution for hospitality venues looking to improve efficiency and customer satisfaction. By seamlessly integrating GoTab's intuitive ordering and payment platform with Hop Robotics' advanced robotic beer dispensing system, businesses can elevate their operational standards and enhance the guest experience to unprecedented levels.

THE GOTAB & HOP ROBOTICS ADVANTAGE

Experience the convenience of having everything in one place. With GoTab and Hop Robotics, operators can efficiently manage their operations, gain valuable insights, and make informed decisions to drive business growth. Upgrade your business today and discover the power of seamless Beverage automation.

WITH GOTAB AND HOP ROBOTICS, OPERATORS BENEFIT FROM:

Streamlined Operations:
Integrate GoTab's POS with Hop Robotics' automated dispensing systems to streamline beer ordering and management directly from the POS platform. Empowering staff to efficiently handle orders and reducing wait times.

Enhanced Guest Experience:
Enable mobile and QR code ordering through GoTab, complemented by Hop Robotics' technology, to provide guests with a convenient and modern way to order beverages.
