

FACT SHEET

Kitchen Display System

The GoTab Kitchen Display System (KDS) serves as the core of your food and beverage service. It simplifies the process of receiving, displaying, and fulfilling orders. By smoothly integrating with both dine-in and online orders, your kitchen will operate more efficiently and profitably than ever.

A BIRDS-EYE VIEW OF YOUR KITCHEN

Organization in the kitchen starts with the bottom line. Manage stock levels and modifiers, enable communication, and track every order from arrival to delivery and all stages in between.

TRUSTED BY

"GoTab gives you the ability to text with the guests through your KDS which has helped reduce undeliverable orders when guests move from one location to another."

—Chris McCarrick, Owner of the Craftworx Taproom

KEY FEATURES

Prep Times

Show items in the order they need to be completed. Hide items that aren't ready for prep.

86, Comp & Void

86, comp and void items to reduce errors and address issues direct in the KDS.

Recipe Display

Use recipe cards, photos, and reminders to ensure dish consistency and quality.

Prep & Order Delays

Adjust preparation times and inform customers of order delays using updates on the menu.

Prep and Expo Mode

Prep and Expo screens connect to show which prepared items correspond to specific orders.

Customer Support / GoChat

Unified in-app customer support provides real-time support.

Text on Fulfillment by Zone

Use automated SMS text notifications to verify the receipt or completion of guest orders.

Manage Stock Levels

Set stock levels, view inventory adjustments and comprehensive inventory reports.

OVERALL BENEFITS

GoTab provides operators with resources and best practices that enhance guest-focused ordering, payment, and fulfillment, enabling them to attain, on average:

35-50%
increased check
totals

Full Kitchen Visibility

Never misplace a ticket again by utilizing real-time kitchen productivity tracking through the GoTab Manager App, available for free on both the App Store and Google Play.

25%
quicker table
turnovers

Keep Guests In-the-Know

Set the right guest expectations with two-way text communication to inform guests about issues or delays or alert them when their order is ready for pickup.

30-50%
improved labor
efficiency

Built for the Cloud

Customizable displays and efficient workflows boost productivity; run on any Internet-enabled Windows, iOS or Android device
