

FACT SHEET

Mobile Ordering & Payment

Modern consumers seek the freedom to tailor their hospitality experiences. With GoTab's mobile ordering and payment solutions, you can utilize a comprehensive range of features to satisfy all your guests' preferences.

QR ORDERING AT OUR FOUNDATION

GoTab started in 2016 as a mobile payment provider. In 2018, we added contactless ordering to enable our operators to generate larger average order sizes and better service delivery without having to add staff.

KEY FEATURES

App-Free Experience

Guests simply scan a QR code, enter their mobile number and payment information; no apps to download, no passwords to manage.

Easy Tab

Easy Tab is the tab that goes with your guest. After servers pre-authorize a card, they send the open tab to the guest's smartphone.

Shared Tabs

Servers and guests can share tabs and both can add to the same tab. Guests can also share tabs with others in their party via text or QR scan.

KDS Integration

QR/mobile orders go directly to the KDS for fulfillment. Guests can share special requests or changes directly with the kitchen via two-way text.

Text on Fulfillment by Zone

QR orders generate automated SMS notifications to verify the receipt or completion of guest orders.

Loss Prevention

Every QR gets authorized to confirm funds are available. This feature will help avoid lost tips and missed revenue.

Split Pay

Guests can choose which items or parts of group items they want to pay for. They can also add any fixed amount they prefer for the tab or tip.

Discounts & Notices

Utilize in-app discounts and alerts to promote additional purchases and enhance customer loyalty.
