

GoTab Pocket & Phone Only POS

Beyond your ambiance and product quality, the ordering and payment process are the most important moments that shape the guest experience. The GoTab Pocket POS or Phone Only POS, equipped with a larger screen, extended battery life, and compact design, offer unparalleled efficiency for order placement, payment processing, and seamless communication between front-of-house and back-of-house operations.

Guest-Centric

Engage guests everywhere without the clunky hardware or complicated user interfaces.

Tap-to-Pay Convenience

Process payments with a tap or dip with, or without, card readers.

Mobile Wallet Ready

Offer mobile wallets like Google Wallet and Apple Pay for maximum convenience.

Keep Hospitality Front and Center

With GoTab's powerful, Pocket & Phone Only POS, your servers can easily navigate the entire restaurant and beyond! Allow your staff more opportunities to engage with guests without the hindrance of clunky hardware or complicated POS user interfaces. It is almost as if they are taking orders by hand.

Personalized, Guest-Centric Convenience

The GoTab Pocket POS keeps the tech in the background so your service stands out. Staff can communicate with the back-of-house tableside, eliminating cumbersome walks back-and-forth to communicate with the kitchen, allowing your guests' issues and concerns to be addressed at the moment.

Tap- or Flip-to-Pay

No more awkward moments for your guests selecting a tip in front of their server. With Flip-to-Pay on the GoTab Pocket POS, and Tap-to-Pay on the Phone Only POS, guests get to review their tab and select the tip amount they prefer at their discretion. Best of all, your guests quickly receive their order confirmation right to their mobile device!

Pre-Auth and Start Tabs Tableside

Authorize new tabs directly from the device to ensure payment is always attached to a tab.

Manage Products and View Sales Reports

Retrieve full sales metrics directly from the Pocket POS or Phone Only POS. And with full product management flexibility, you can quickly adjust inventory levels, 86 items, set product delays, and much more.

NO LOCK IN CONTRACTS

Data

It's yours

Hardware

Run on a tablet, pc, phone, it's up to you; our software runs seamlessly on iOS, Windows and Android platforms

Payment Processor

No one-size-fits all solutions here

Just let us know when you're ready and we'll be there to help you set up.
