GoTab × SHOGO®

Point of Sale and eCommerce Accounting Automation

Daily cloud-based accounting automation service for businesses using GoTab with Oracle NetSuite, QuickBooks Online & Desktop, Sage Intacct, Xero, or Zoho Books.

THE GOTAB & SHOGO ADVANTAGE

The Shogo integration provides an automated bridge between GoTab and the client's accounting software of choice. Once the client connects their accounts and links their data, there is no additional effort required. Shogo automatically syncs all sales every morning. The Shogo and GoTab integration allows GoTab operators to connect with QuickBooks, Oracle NetSuite, Sage Intacct, Xero, and Zoho Books. Email notifications and exception handling keep you in the loop about your accounting processing.

WITH GOTAB AND SHOGO, OPERATORS BENEFIT FROM:

1. **Time Savings.** Shogo automatically syncs your GoTab sales data with your accounting software each morning, leaving you more time to focus on the tasks that matter.

2. **The Flexibility to Choose.** Shogo integrates with 7 different accounting tools and offers flexible configurations allowing you to pick the accounting system and posting method that's right for your business.

3. **Simplified Onboarding.** When a prospect signs, Shogo can provide seamless continuity for their accounting with no data loss.
