

Use Data-Driven Sales & Product Insights to Drive Profits

Back Office now integrates with GoTab's industry leading Restaurant Commerce Platform. Through direct integration with GoTab, operators can reduce manual errors, fill informational gaps between systems, and receive superior visibility to key profit drivers. Restaurants are empowered to utilize real-time data to make faster, more informed business decisions, and supercharge their growth!

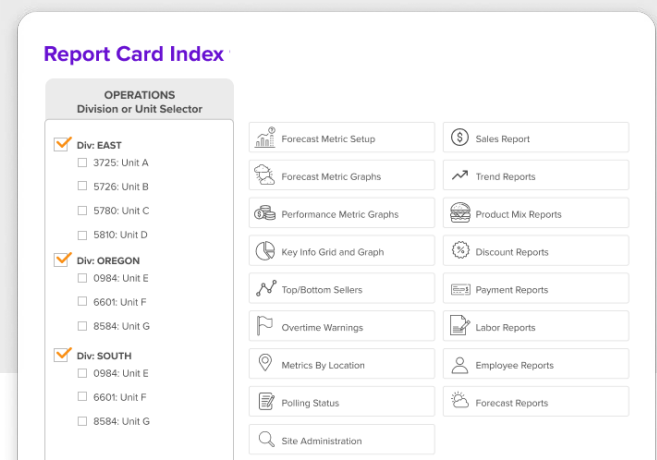

THE GOTAB AND BUYERS EDGE PLATFORM BACK OFFICE ADVANTAGE:

Review operational KPI's and reporting around sales, product, and performance with exception-based reporting dependent upon tolerances.

WITH INTEGRATION BUSINESSES BENEFIT FROM:

- Gaining visibility in how operational decisions affect financials.
- Automatic sync of all sales revenue and tax liability to the Back Office accounting system for accurate financial reporting and timely tax payments.
- Ability to review operational KPI's and reporting around sales, product, and performance.
